YAKUNAAH
GLOBAL NUTRITIONAL CUISINE

Twenty years in the making. Four corners of the globe. One life to reinvigorate. **Alfa Yakunaah** means “love of life” and has been carefully designed to live up to its name. It is a powerful blend of adaptogens and antioxidants designed to help you recover from excessive stress and fatigue and help you love life!

Adaptogens are known to help you “adapt” to changes in your life and offset the damaging effects of stress, pollution, and aging, making it possible to have a longer and healthier lifespan. The adaptogens found in Alfa Yakunaah are processed at different temperatures; a unique process which leads to superior quality.

The three superfruits chosen to be the carrier of the adaptogens are Acai Berries from the ancient tropical South American jungles, Pomegranates from California, and Prickly Pears from the vast deserts of Sonora. These are the best of the best in providing you with rich antioxidant nutrition. Remember... it's your life. Start rebuilding it.

Rebuilt.
