

**UNDEW** what stands in the way  
of a more perfect you.

## **WHY** you should use a **Facial Cleanser.**

Healthy skin begins with clean skin. Ordinary soap can be too harsh on your face and can remove natural oils that should remain, leaving your skin feeling dry and irritated. Facial cleansers have a low pH so they won't upset the balance of your skin.

Environmental impurities and cosmetic products are typically not water-soluble so washing your face with just plain water will not properly remove them. A good cleanser has the ability to emulsify these impurities into smaller particles so they can easily be washed away, protecting your skin from clogged pores, irritation and signs of premature aging.

## **WHO** should use **UNDEW Facial Cleanser.**

Using UNDEW Facial Cleanser will benefit both men and women. In the morning, use it to remove excess oil that your skin has produced overnight. At the end of the day, washing with UNDEW Facial Cleanser

will rid your skin of the dirt and impurities that have accumulated. Your skin will breathe better and be better prepared to receive the maximum benefits from your UNDEW Skin Care regimen.

**UNDEW Facial Cleanser** is a luxurious, creamy cleanser formulated to safely remove dirt, makeup and environmental impurities without removing the natural oils your skin needs.
