***Your health is an investment,
not an expense***

IMMUNITY IS AGELESS

TAKE STEPS TO IMPROVE IMMUNITY, WHATEVER ONE'S AGE

0 10 20 30 40 50 60 70 80 90 100

CHILD IMMUNITY

Antibodies come from the mother.
As the baby grows, you can build
its immune system with immunizations,
activities, sleep, and a healthy diet.

ADULT & EDERLY IMMUNITY

As you grow older childhood and adolescence immunity weakens.
Your body doesn't respond as quickly to fight off bacteria and
viruses that invade our systems, falling ill more frequently.
Aging takes a toll on the immune system allowing more infections,
inflammations and diseases to take hold. However, with the right
nutrition you can maintain a healthier immune system.

LIFESTYLE & DIET

**PLAY A ROLE IN PROMOTING
IMMUNE HEALTH AND THEREBY
ONE'S ABILITY TO FIGHT-OFF
ILLNESS**

When working well, the immune system
protects you from illness. However it can be
compromised by poor lifestyle, leaving you
susceptible to illness.

FACTORS THAT COMPROMISE YOUR IMMUNITY INCLUDES:

- ✓ Nutrient Deficiencies
- ✓ Stress
- ✓ Poor Diet
- ✓ Sleep Patterns
- ✓ Habits – Sugar, Tobacco, Alcohol
- ✓ Lack of Exercise
- ✓ Being Overweight
- ✓ Virus
- ✓ Pandemic

ALFA CAFÉ NUTRA LITE BLEND ADDITIONAL INGREDIENTS & USE

Garcinia Cambogia Extract (fruit) standardized to contain 60% Hydroxycitric Acid (HCA)

- HCA plays a huge role in controlling appetite by increasing the levels of serotonin, which also reduces the symptoms of anxiety or depression.
- HCA helps block a key enzyme responsible for turning carbohydrates into fats; balances blood sugar levels by delaying the absorption of glucose into the intestines, therefore helping to curve the appetite.

PXP Forte with all the benefits covered earlier

Combining all these ingredients in a coffee blend that contains a natural form of caffeine will increase the body's metabolic rate to burn more calories

Suggested Use:

- Pour one packet into a cup and add 6-8 ounces of hot but not boiling water, stir and enjoy
- Recommended 2 packets/day for first 3 months (requiring 2 boxes/month), after health goals met, switch to 1 packet/day (1 box/month)
