PXP
ROYALE
from PURPLE RICE

For centuries, behind Chinese palace walls, there was a secret weapon being carefully protected and guarded. This was purple rice. The consumption of this rice was limited to the emperors of the lost powerful dynasties in Asia, their families, and the warriors who rode into battle for them. Now, this potent rice has been rediscovered and unveiled in Enzacta's **Alfa PXP Royale!**

Enzacta call this healthy functional food, "royalty rice". This specific strain of rice has a higher level of nutrients and amino acids than can be found in any other rice family. Alfa PXP Royale contains all the **nutritional benefits** of PXP Forte, but since it is such a unique strain of rice, it can boast 2-3 times higher levels of antioxidants through powerful anthocyanin properties. It is naturally equipped with polysaccharide peptides, and has a high concentration of anthocyanin antioxidants which gives it its purple color.

Anthocyanins offer countless therapeutic benefits. They are health promoting because of their antioxidant activity, anti-cancer and anti-inflammatory effects. They absorb harmful molecules, protect arteries and prevent DNA damage that can lead to cancer. Studies have also shown that anthocyanins are highly effective in lowering cholesterol. Use the weapon of ancient warriors and unlock an unequalled edge in life.
